We take pleasure in recommending Mr. Wm. Daniel, a Professor of Music, a gentleman of unexceptionable character, who has been a resident of this city for the last 10 or 12 years, and has been teaching in almost every respectable family here with great success, and has given general satisfaction.

VOLUME XIV. MILWAUKEE DAILY SENTINEL, THURSDAY MORNING, MARCH 5, 1857. NEW SERIES.

THE DAILY SENTINEL.

RUFUS KING & WM. H. WATSON,
PROPRIETORS,
Under the Name and Firm of Rufus King & Co.

MILWAUKEE:
Thursday Morning, March 5.

For Chief Justice of the Supreme Court,
EDWARD V. WHITON.

ELECTION, TUESDAY, APRIL 7.

Adjournment of the Legislature.

Both Houses of the Legislature have resolved to adjourn finally on Monday morning next, the 9th instant, and this time mean to stick to it.—We think they have done work enough to last awhile.

Extra Session of the Senate.

The United States Senate met in extra session at Washington yesterday noon. A number of new Senators were qualified and took their seats, among them Senator DOOLITTLE from this State. The session will doubtless close in a few days.

The Inauguration.

The telegraph gives us quite full details of the ceremonies of the Inauguration, and a brief sketch of Mr. BUCHANAN'S address. The weather was propitious, the throng of people in attendance unprecedented, and the spectacle impressive. Mr. BUCHANAN, like Mr. PIERCE, makes fair promises in his Inaugural, but goes out of his way to endorse the Kansas-Nebraska Bill. If he is rightly reported in what he says about the acquisition of foreign territory, it is clear that President BUCHANAN at Washington, is quite another man from Minister BUCHANAN at Ostend.

Nomination for Chief Justice.

The Sham Democracy got up a *quasi* State Convention at Madison, yesterday, composed mainly of members of the Legislature and lookers on, and went through the motions of nominating M. M. COTHREN, of Mineral Point, as candidate for Chief Justice of the Supreme Court. Afterwards FRED HORN tried to get the Convention to endorse the caucus recommendations for Federal Offices in this State, but this they peremptorily refused to do, to Fred's infinite disgust.

Chicago Charter Election.

The Republicans of Chicago made a clean sweep at their charter election on Tuesday last. JOHN WENTWORTH, their candidate for Mayor, was elected by *eleven hundred* majority. The rest of the Republican ticket succeeded by from 12 to 1500 majority. Of the Aldermen elect, eight are Republicans and three Democrats, giving the Republicans 4 majority in the next Common Council. There was considerable fighting at one or two of the polls and two men killed.

Appeal from Street Juries.

The House, we are glad to see, after a spirited fight, has ordered to be engrossed, the bill "restoring the right of appeal from the awards of street juries" in Milwaukee.

This right was taken away by an act got through a year ago, in the usual way, the people here most interested not knowing or asking for it.

It is believed that the privilege of a trial according to the course of the common law, in open court by a fair jury, is meant to be guaranteed by our constitution, to every person whose property is taken for public use by a municipal corporation; and that the infringing upon, or impairing of that right in the least degree is a dangerous precedent. Such we believe is the general sentiment of the legal profession.

The present practice of appointing street juries, and making and confirming their awards and assessments, is open to the most scandalous abuses, and will inevitably give rise to expensive and protracted litigation.

It is a matter of surprise and regret that so many of the Representatives from our city oppose the restoring of so sacred a right. Suspicion is excited that the party that controls our city government, is interested in establishing a loose and corrupting system.

We hope that both Houses of the Legislature, acting under the peremptory injunction of the constitution directing the Legislature to restrain the abuses of municipal corporation, will follow up the work so well begun and protect the rights of property in Milwaukee.

Federal Appropriations for 1857.

We find in the N. Y. *Commercial Advertiser*, of the 27th ult., a detailed list of the appropriation bills, which passed Congress last week. The aggregates are as follows:

Civil Service	$6,118,604
Army service	14,089,645
Naval service	11,359,782
Fortifications	2,565,000
Grand Total	$34,128,031

In this large amount of *thirty-four millions*, we notice but a *single* item for the Upper Lakes, and that is an appropriation of $50,000 for the "survey of the Northern and North Western Lakes." Although the Treasury is suffering from a plethora of money, and the vast commerce of the Northwest stands in pressing need of the improvement of the St. Clair Flats and of our Lake Harbors, not a dollar has been appropriated for these most necessary and clearly national objects. This neglect is wholly inexcusable.

Abstract of the Bill Amending the Banking Law—pending in the Legislature—Reported by the Joint Committee of the two Houses.

SEC. 1. Authorizes the Legislature hereafter to provide for increasing the Comptroller's bond, change his salary, and provide for clerks and contingencies of his office.

SEC. 2. Amends Sec. 9 of the Banking Law—relative to accepting railroad bonds as a basis of security—so as to take them at not more than "90 per cent. of their current and actual value, not more than $10,000 per mile, nor at more than half the average cost and value of the road.

SEC. 3. The Bank Comptroller is to take a personal bond of those who deposit railroad bonds, to further secure their redemption.

SEC. 4. Bonds hereafter executed in pursuance of Sec. 17 of the Banking Law, or of this act, are to have a warrant of attorney attached, authorizing the entering up of judgment.

SEC. 5. No bank to have out a larger amount of circulating notes than its capital stock amounts to.

SEC. 6. Sec. 25 of the Banking Law is so amended that when any bank fails within 30 days to make good any depreciation in its securities the Comptroller shall proceed against it.

SEC. 7. Authorizes the Comptroller, if he shall think any bank in an unsafe condition, or doing business unlawfully, to appoint a Commissioner to examine the matter thoroughly.

SECTIONS 8, 9, 10 and 11 provide fully for the powers and duties of such Commissioner, with penalties against those who refuse to submit to, or embarrass the examination.

SEC. 12, provides for redemption of the issues of a bank after the two years' notice (in Sec. 36 of the Banking Law) has expired—bankers to give personal bonds therefor, with three or more sureties.

SEC. 13. Amends sec. 39 of the law so as provide further security for the destruction of notes returned.

SEC. 14. Amends sec. 48 of the law so as to authorize banks to take 10 per cent. interest till 1870.

SECTIONS 15 and 16, provide for a vote of the people at the general election in November next, on this act, as an amendment to the Banking Law.

FROM MADISON.

Editorial Correspondence of the Sentinel.

MADISON, March 3, '57.

I enclose an abstract of an important bill now pending, in relation to amendments to the Banking Law. In deference to the opinions of those who think that no amendments are valid except they are submitted to the people, the bill provides for a vote next fall.

A very mean piece of party spite, worthy of the expiring days of Pierce's Administration, has just come to light. Ebenezer Brigham, the first settler of all this region, who was appointed postmaster at Blue Mounds by Gen'l Jackson, and has retained the office, of small pecuniary amount, for 25 years, through all succeeding administrations, has been removed! to make way for some "democrat."

I see that some of the "fierce democracie" are making themselves very unhappy, in regard to Gov. Bashford's getting rich out of the $9000 recently appropriated for his expenses in the suit against Barstow. They need not. His four counsel got $6000 of the amount *instanter*, and the balance is used up by way of paying for agents to look up Bridge Creek, Spring Creek, the Waupacca towns, &c.—for keeping of witnesses pending the trial—for expenses of room-rent and board, during the four months consumed in the investigation.

The Senate this morning ordered to a third reading the bill appropriating money for the Library, amended so as to expend $1000 instead of $2000.

Another bill was ordered engrossed, giving the Attorney Gen'l a clerk at $600 a year—a thing about as much wanted as a fifth wheel to a coach.

A joint resolution passed authorizing the Revisers to have chapters of the revised statutes printed as fast as they get them ready, so that the whole may be before the next Legislature at the opening.

The bill "to quiet titles to real estate" was killed; and so was the bill authorizing Platteville Academy to borrow $3,000 from the School fund. It was successively loaded down with amendments, giving the same privilege to Milton Academy—to Albion Academy—to Racine Union School—and finally to all the academies and union schools of the State, and then buried under the pile.

A large number of bills were considered in Committee of the Whole, and came out in various stages of amendment, or dilapidation.—Among them was the Lunatic Asylum Bill in which the names of the Commissioners were changed by changing Ira Miltimore for Ex-Gov. Farwell. Mr. Harvey had before endeavored to substitute the name of A. S. Bennett for Mr. Miltimore, without success, and a motion to substitute Edwin Palmer for E. B. Wolcott also failed.

In Assembly a number of bills of an important character passed to-day. Among them I notice the following:

Repealing chap. 55, laws of '56. (This restores the old law of '51 relative to the *rates of interest*, forfeiting the principal in case of usury. It has gone to a select committee in the Senate.)

Amending the charter of Milwaukee Gas Co. (This increases the capital stock to $400,000, and compels the laying of 3½ miles of pipe on the west side of the river this year.)

Increasing the salaries of Supreme and Circuit Judges. (This raises the salaries of the judges to be hereafter elected to $2,500. It is hardly likely that it will pass both Houses in that form.)

Changing the fiscal year, &c. (This makes the fiscal year hereafter terminate on the first of October, and requires that all the officers shall report to the Governor within ten days thereafter. The Governor is then, within 8 days, to hand the Reports over to the State printer, and 8000 copies of them to be printed, ready for delivery to the Legislature at the opening of the next session.)

Providing for two State Prison Inspectors. (I have already referred to this bill, as having been prepared by the State Prison Committee, and deemed by them necessary for the best interests of the State. It is an Assembly bill, and has yet to pass the Senate.)

Concerning Railroads. (This provides that all Railroad Companies shall erect warning boards at road crossings, and for the rate of speed in streets, &c. It has passed both Houses, and will doubtless become a law.)

Regulating the purchase of Stationery. (A stringent law, prepared and carefully digested in Senate. I have already mentioned its leading provisions.)

The memorial from the Senate, against the obstruction of the Niagara river by a bridge below Buffalo, was indefinitely postponed, on the very pertinent suggestion that we had better mind our own business, and not interfere in the railroad quarrels of other States.

A resolution was adopted looking to the payment of the balance of account of the Appletons for books. Mr. Tenney stated that he was informed that by Mr. Kruer, the late Librarian, that none of the money came into *his* hands, but was all drawn out by Gov. Barstow. Mr. Tenney suggested that inasmuch as the Appletons had not got their money, Mr. Barstow would probably settle it! Unquestionably!

The delegates from the southwest counties pressed, and the Assembly ordered engrossed, after a lively discussion, a bill providing for an appropriation of $30,000, to be used in sinking a shaft to test the question of the existence of lead below the lower magnesian rock—a contract to be made with some company, who are to give bonds that they will do the job, and pay over to the State all the net profits on the lead raised, till it amounts to the $30,000. If no lead is found, the sum will, of course, be charged to profit and loss. The vote on the bill was very close—38 to 36.

The bill restoring the right of appeal from the award of jurors in street openings in Milwaukee elicited a long and rather warm debate. Moses M. Strong, leading the whole city delegation, opposed the bill earnestly, while Messrs. Lovell and Noggle represented with spirit the parties who ask the restoration of the right of appeal. The plain justice of the proposition was the strong point of the argument of the latter gentlemen, and was pressed home. The manner of operation of these street juries and the Aldermen came, after a while, into "the field of view."—The facts told, through Mr. Noggle, seemed to touch the Aldermanic Assemblymen to the quick, and Alderman Taylor "pitched in," saying that Mr. Noggle's assertions were "a pack of Shanghai falsehoods," and "a lot of Shanghai slang." This foolish appeal to party feeling did the business for the Aldermen, and the bill was ordered engrossed, by a vote of 42 to 26.

Mr. Moses M. Strong had leave to introduce a bill, to give the Legislature a chance to refuse to pay Mr. Arnold for his services to the State [!] as counsel for Barstow. And the Assembly rejected the bill immediately, by a vote of 55 to 16. Now, Mr. Arnold sues the State, and probably, under the unwise statute in force, may recover. Stranger things have happened. Probably he can get a jury of lawyers to assess his "services to the State" at $5000 or more.

The select committee, Mr. Lovell chairman, to whom that portion of the Gov.'s Message relating to Kansas was referred, reported to-day a bill making an appropriation of $20,000 to the Governor, to be used by him for the aid of aid of citizens of this State who shall go to Kansas, or who are there now, in case there shall be further violence and outrage upon them.

The bill also provides for a commission, to unite with persons appointed by other States, to go to Washington and demand, on behalf of the free people of the North, the exercise of their rights as citizens to emigrate peaceably and settle in Kansas or elsewhere.

The Assembly receded from its Mills Woman's Rights amendment to the suffrage bill, by 42 to 31, so that the question is now disembarrassed of humbug.

To the Democrats of the First Ward.

FELLOW CITIZENS:—We, the undersigned, Thomas Spence and Leonard Schneider, deem it our duty to make the following statement of facts relative to our conduct in connection with the recent call of a Caucus, and the revocation thereof, and in order to exhonerate ourselves from the implications cast on us by the publication of said revocation in the *News* and *Banner & Volksfreund*, of Saturday last.

As regards the call of the Caucus, we have only to say, that we were by no means *induced* to sign said call, as the *News* represents, "by misapprehension and misrepresentation." No inducement was ever held out, neither was any misrepresentation made to us, but we signed it voluntarily, and fully possessed of the knowledge that in us, and in us only, was vested the power to call said caucus whenever we thought fit.—We furnished the *News* and *Banner & Volksfreund* with copies of said call for publication, on the afternoon of Thursday last; and in the course of said afternoon Mr. OTIS B. HOPKINS called on us with the request to revoke the call, which we positively refused to do, whereupon Mr. HOPKINS stated that he had been to the aforesaid printing offices and stopped the publication of said call; which in fact proved to be the case, by the above papers not publishing it. The influence exercised by Mr. HOPKINS over the two papers above alluded to, shows conclusively an usurpation of power, which, if submitted to, threatens to destroy our most sacred rights, the bulwark of Democratic institutions—a Free Press—and reduce us to a level with the most tyrannical monarchies of Europe.

Having learned that the *News* and *Banner & Volksfreund* would not publish the call, we caused its insertion in the other city papers; and thus is the insinuation of the *News* that "the call appearing in the *Sentinel* was sufficient to d—n it," perfectly absurd—knowing as the *News* did that we alone, as the Democratic Committee, had the right and privilege to make the call, and they—the *News*—nevertheless refusing to publish it.

So far as our signatures are connected with the revocation, we beg to state, that during the Friday following the Thursday above alluded to, we were so systematically assailed by Mr. HOPKINS that we at length signed a revocation laid before us by Mr. HOPKINS; but we positively assert that the expression "of having been induced by misrepresentation and misapprehension," made use of by the *News* of Saturday, were not contained in the revocation at the time we signed it.

THOMAS SPENCE,
LEONARD SCHNEIDER.

I Promise to Pay.

John Steady, the fat grocer, (who lives upon the corner of Sugar street, and Pork Avenue, and of whom Seedy and Self purchase our small quantities of sugar, and very small pieces of pork,) held quite a lengthened conversation with us, regarding promises to pay. John Steady says he always thinks twice, before he affixes his signature to a promise to pay; so that when the promise arrives at maturity he is ready with his fat hands, to count out the needful. And this fact, of his doing all the thinking beforehand, saves him from unpleasant visits of long visaged creditors, or stern sheriffs.

We admired very much John Steady's views, upon the subject herein mentioned, and as we proceeded to our lodgings, we insinuated to Seedy, the security and happiness which would result to him, from an adoption of John Steady's views. Taking this liberty, from the fact that we had succeeded in making good our promise to pay, with our austere landlady, whilst Seedy is in a very insecure and precarious position in regard to that lady.

Now my friend Seedy could with ease have met his promise to pay, had he not placed too much confidence in lawyer Raven, who resides in Law Avenue. Seedy held a promise to pay against his friend Raven. When the promise arrived at maturity, and Seedy presented it, lawyer Raven looked at it some time, through his golden-edged spectacles, then cooly informed Mr. Seedy, "that there was a flaw in the document" and that he, Mr. Raven, was not prepared to pay cash upon such illegal paper.

Seedy stood astounded, thinking that his friend Raven only joked. But lawyer Raven seldom jokes, especially on such serious subjects as promises to pay.

The consequence of all this was, that Seedy sought Justice Thorough, the strong arm of the law, and after a long law formula, was informed that he must disburse sufficient to pay the expenses of the suit, and keep his vile promise; which expenses left my friend Seedy with an exceedingly light purse and a heavy heart.

Lawyer Raven, Seedy and Self pronounced a rascal, as he could with ease have cashed Seedy's promise to pay; owning, as he does, several houses upon Business street, as well as an unlimited amount of stocks, bonds and mortgages.

Then there was the case of young Mr. Clerk, who gave his promise for a large amount, to Messrs. Dry Goods and Groceries. He was exceedingly unfortunate, and could not meet his matured promises. Had to suspend business, and through grief and care, became the individual on whom Seedy composed the following rhyme:

THE DRUNKARD.

With his jug he goes cheerily,
For he owns he loves it dearly.
Although his coat is in rags,
And his pants hang in tatters and tags,
With the bottle he drowns all care.
A disciple of Bacchus is he,
To none other God will he bend the knee,
For Bacchus drives from him all sorrow
Nor makes him think of the morrow.
Sweet solace has he from ills,
Nor bothers himself about bills
Or notes of promise to pay,
When his creditors come he is always away,
Or embracing his deity Bacchus.

So much for Seedy's poetry! Again we have the case of young Mr. Swindle, who freely gave his promises to the merchants of the city, and after disposing of their goods, coolly informed them that he was not prepared to honor his promises. Seedy and Self class Mr. Swindle with Lawyer Raven. And now we (that is, Seedy and Self), would advise our friends and the public at large, to think twice before they affix their signature to a promise, and also, to think twice before they receive a promise from another, and by so doing they will save themselves from danger and insure against the visits of constables and sheriffs.

SEEDY AND FRIEND.

WAUKESHA REPUBLICAN.—We learn from the last number of this paper that Mr. A. A. GRIFFITH, formerly Principal of the First Ward Public School in this city, has become associated with Mr. LEONARD, as one of the editors and publishers of the *Republican*. Mr. GRIFFITH is a gentleman of fine talents and sound principles, and under the joint auspices of Mr. LEONARD and himself, the Waukesha *Republican* will deserve more than ever the liberal patronage of the Freemen of Waukesha.

SAM AND SHAM.—The New York *Express*, organ-in-Chief of the Know Nothings, thus explains—in view of the recent vote in the "Democratic" U. S. Senate, to disfranchise foreigners—why it is that SAM so naturally coalesces with the Sham Democracy:

We are sometimes asked why we Americans cannot act with the Republicans—but keep up divisions that irresistibly lead to Democratic control—and our answer is here,—that, between the two, the Bredheads, Bigges, Browns, &c., are better Americans than the Wilsons, Sewards & Co. The former add American to national sentiment, the latter are Sectionalists and Anti-Americans besides.

INFORMATION WANTED.—Of BERNARD HUGHES, from Charleyville, County Louth, Ireland, who is supposed to be now living in Wisconsin. His sister BRIDGET HUGHES will be thankful for any news of him. Please direct to the editor of the Baraboo REPUBLIC.

The New Coinage Bill.

The following is the Act, which has passed both Houses of Congress and received the signature of the President, relating to Spanish and Mexican Silver coins, and the new cent. It will be seen that while these foreign coins are receivable at the Treasury and Post Offices of the U. S., only at their reduced value, they are taken at the U. S. Mint, at their nominal value, in exchange for the new cents:

AN ACT relating to foreign coins and the coinage of cents at the mint of the United States.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the pieces commonly known as the quarter, eighth, and sixteenth of the Spanish pillar dollar, and of the Mexican dollar, shall be receivable at the treasury of the United States, and its several offices, and at the several post offices and land offices, at the rates of valuation following, that is to say, the fourth of a dollar, or piece of two reals, at twenty cents; the eighth of a dollar, or piece of one real, at ten cents, and the sixteenth of a dollar, or half real, at five cents.

SEC. 2. *And be it further enacted,* That the said coins, when so received, shall not again be paid out or put in circulation, but shall be recoined at the mint. And it shall be the duty of the director of the mint, with the approval of the Secretary of the Treasury, to prescribe such regulations as may be necessary and proper to secure their transmission to the mint for re-coinage, and the return of distribution of the proceeds thereof, when deemed expedient, and to prescribe such forms of accounts as may be appropriate and applicable to the circumstances; *Provided,* That the expenses incident to such transmission or distribution, and of re-coinage, shall be charged against the account of silver profit and loss, and the net profits, if any, shall be paid, from time to time, into the treasury of the United States.

SEC. 3. *And be it further enacted,* That all former acts authorizing the currency of foreign gold or silver coins, and declaring the same a legal tender in payment for debts, are hereby repealed; but it shall be the duty of the director of the mint to cause assays to be made, from time to time, of such foreign coins as may be known to our commerce, to determine their average weight, fineness, and value, and to embrace in his annual report a statement of the results thereof.

SEC. 4. *And be it further enacted,* That from and after the passage of this act, the standard weight of the cent shall be seventy-two grains, or three-twentieths of one ounce troy, with no greater deviation than four grains in each piece; and said cent shall be composed of eighty-eight per centum of copper and twelve per centum of nickel, of such shape and device as may be fixed by the director of the mint, with the approbation of the Secretary of the Treasury, and the coinage of the half cent shall cease.

SEC. 5. *And be it further enacted,* That the Treasurer of the mint, under the instruction of the Secretary of the Treasury, shall, from time to time, purchase from the bullion fund of the mint, the materials necessary for the coinage of such cent piece, and transfer the same to the proper operative officers of the mint, to be manufactured and returned in coin. And the laws in force relating to the mint and the coinage of the precious metals, and in regard to the sale and destribution of the copper coins, shall, so far as applicable, be extended to the coinage herein provided for:

Provided, That the net profits of said coinage, ascertained in like manner as is prescribed in the second section of this act, shall be transferred to the Treasury of the United States.

SEC. 6. *And be it further enacted,* That it shall be lawful to pay out the said cent at the mint in exchange for any of the gold and silver coins of the Unietd States, and also in exchange for the former copper coins issued; and it shall be lawful to transmit parcels of the said cents, from time to time, to the assistant treasurers, depositories, and other officers of the United States, under general regulations prepared by the director of the mint, and approved by the Secretary of the Treasury, for exchange as aforesaid. And it shall also be lawful for the space of two years from the passage of this act and no longer to pay out at the mint, the cents aforesaid, for the fractional parts of the dollar herein before named at their nominal value of twenty-five, twelve-and-a-half and six-and-a-quarter cents, respectively.

SEC. 7. *And be it further enacted,* That hereafter the director of the mint shall make his annual report to the Secretary of the Treasury up to the 30th of June in each year, so that the same may appear in his annual report to Congress on the finances.

Approved, February 21, 1857.

Kansas Affairs.

We received two letters yesterday from our regular Kansas correspondent of dates, the 6th and 12th February. The news contained in them has been mostly anticipated by information from other sources. We subjoin the following items:

MURDER OF THOS. SHOEMAKER.

We have just heard of the death of the ex-Receiver of the Land Office, Mr. Thos. Shoemaker. He lived nearly two days after he received the injuries. For some time he has been addicted to occasional drinking. This led to his unhappy fate, but no doubt is entertained but his death was premeditated. The pro-slavery ruffians who killed him have killed others before, and on more than one occasion threatened to kill him. Mr. Shoemaker was from the neighborhood of Jacksonville, Illinois. He received the appointment of Receiver, on the passage of the Kansas-Nebraska bill. He was subsequently removed before he could assume his duties, on account of his being a free State man. He has left a widow and several young children to lament his violent death.

A PRO SLAVERY CONSPIRACY.

There is an extensive conspiracy on foot, by which that portion of the Shawnee lands not taken by the Indians will fall into the hands of the Missourians. The Delaware agent, who is a pro-slavery man, is reported to have given information to associations in Jackson County, Mo., of what lands the Indians have selected and what are to select. Those associations are formed to secure all of these lands to their numbers. They have been divided, and the number of persons thus interested is variously stated at from two thousand to twenty-five hundred. This is regarded as a scheme by which all of these men will be made voters for delegates to the Constitutional Convention. By the terms of the treaty white men are not allowed to settle there until ninety days after the surveys have been approved. In all other cases this prohibition has been disregarded.

The Free State people are beginning to get alarmed at the rapid stride of their enemies. A convention has been called, the following is the notice, a copy of which I have just seen:

FREE STATE DELEGATE CONVENTION.

"There will be a Delegete Convention of the Free State citizens of Kansas held on Tuesday, March 10th, 1857, at Topeka. Each district will be entitled to as many delegates in the convention as it has members in both branches of the Legislature. The citizens of the several districts are requested to meet in their respective districts and elect their delegates. We trust that the importance of the Convention at this time will be fully appreciated by all the friends of freedom in the State.

"H. Miles Moore, Sec'y.

"Lawrence, Feb. 3, 1857."

The design of this Convention is, I understand, to determine what course of policy it will be best to pursue as regards the future.

Some of the pro-slavery men here are declaring that this popular convention is *treasonable*, and say that it must not be permitted to assemble.—*Chicago Dem. Press*, of yesterday.

NEW DODGE.—A few days since a well dressed, gentlemanly appearing man, leading a beautiful boy some five years of age, entered a jewellers shop in Broadway, New York, and asked the price of a handsome gold bracelet; it was $125. The gentleman examined, admired, and finally brought the article and put it in his pocket. He then took out a large purse, full of shining pieces and opened it. At that moment, he suddenly exclaimed, with a look of alarm, 'why! where is Charley?' and dashing the plump purse on the counter he rushed from the store, in frantic search of his boy who had disappeared. The clerk awaited the gentleman's return for some time, with his purse lying where he had cast it down in the excitement. No fear of trickery was entertained, as the purse evidently contained money amounting to twice the value of the bracelet. But when hour after hour passed without the gentleman's return, and it was found that the purse only contained brass medals, the size of half eagles, the clerk and his master both came to the conclusion that their customer was a slippery one and that his innocent looking boy was not being brought up in the way he should go.

HEAVY ROBBERY.—Yesterday forenoon, the messenger of the Marine Bank, while passing round among the banks making up the balances, entered the Exchange Bank, and laid a package of bills upon the desk, and turning away for an instant found the pile mysteriously spirited away. Up to his time no trace has been discovered as to the thief. It was a mixed package, containing in the neighborhood of $6,000.—*Chicago Dem. Press of yesterday.*

SALES OF REAL ESTATE.—Land has not as yet risen in price since last fall, but there is a little more activity in the sales. We learn that Mr. J. F. FLANDERS has sold his water power and mill to Mr. CHARLES COOK of Milwaukee, for $13,000, and that Mr. DAVID MUNSON has sold his residence to the same gentleman for $3,000. Other sales of less importance have taken place during the past week.—*Baraboo Republic.*

THE DUDLEY OBSERVATORY.—We learn from the Albany *Evening Journal* that the Dudley Observatory is fast approaching the time of its complete equipment and the beginning of its usefulness. The Astronomical Clock, presented by Erastus Corning, has been there for some months. The Transit Circle, belonging to the U. S. Coast Survey, which was built in Berlin, has arrived in good order. The Meridian Circle, also built at Berlin, is on its way, and expected within the course of the present month. The Heliometer is in progress under the hands of Mr. Charles E. Spencer, at Canastota.

The Calculating Engine, presented by John F. Rathbone, is expected within a month. This extraordinary invention is the work of a Swedish mechanician and the labor of twenty years. It was built at Stockholm. To aid in its completion the Swedish government has at different times given more than $10,000. With prepared formulæ it will do the work of four computors. It will calculate almost every description of mathematical tables, and not only calculate but print and stereotype them! It was obtained by Dr. Gould through Charles Babbage, of London.

The giving-mania has been directed towards this promising institution, and its funds have been receiving almost daily additions. More than $15,000 have already been contributed from the city of New York. The *Journal* says that the amount expended thus far for the buildings and instruments is about $75,000. The Permanent Fund for the support of the Institution exceeds $75,000 more. Regular observation will be commenced in the Spring.

SCHOOL-HOUSE DESTROYED BY FIRE.—The School-House, in District No. 9, of this town, was destroyed by fire, on Tuesday night last, together with all the books and furniture. As usual, there was no insurance on the building, and it is great loss to the District.—*Waukesha Republican.*

"THE ILLINOIS BANKS—FALSE ALARM.—A panic was got up, at short notice, in New York, Buffalo, Cleveland &c., on Friday last, about Illinois money. The consequence was that for a day, or two, the bills of most of the Illinois Banks were at a heavy discount, and the Brokers reaped a rich harvest. There was no foundation whatever for this false alarm. The Chicago Democratic *Press* of yesterday says:

"There is not the slightest cause for apprehension as to the present condition of the Illinois Banks. They are without doubt stronger to-day than they were six weeks ago. Some of them have recently retired a considerable portion of their circulation, and all of them it is believed have taken precautionary measures to be ready for any emergency. The move in New York has doubtless been got up by designing parties for the purpose of buying up Illinois currency at a large discount.

MARINE INTELLIGENCE.

We understand that the Propellers *St. Nicholas* and *City of Hamilton*, belonging to the estate of Messrs. Dixon & Swales, of Hamilton, were sold on Wednesday to Mr. Bancroft, of Oswego, for the sum of $40,600. They are intended for the Oswego and Milwaukee trade.

The brig *Malta*, engaged during the last season in the Chicago and Collingwood trade, was sold at the latter port, last week, by Sheriff's sale. There was a mortgage of $16,000 on the vessel, which the buyer had to assume. After five bids she was knocked down to Mr. Murray, of Montreal, at $16,051.—*Toronto Globe*, Feb. 28.

Miscellaneous.

THE ONLY MEDAL AWARDED

BY THE NEW YORK EXHIBITION to the English or Foreign Sauce Manufacturers has been obtained, amongst numerous competitors, by LEA & PERRINS, for their

Worcestershire Sauce,

Whereby further testimony is afforded of its being the best Sauce extant.

The celebrity of this Sauce has extended to every quarter of the globe, and its efficacy in promoting the general health is becoming daily more observed and acknowledged.

In the United States it is held to be the most agreeable condiment, and is esteemed for its tonic and invigorating properties, its habitual use enabling the stomach to digest the food.

On the Continent of Europe, these qualities have been testified to by a gentleman who writes to LEA & PERRINS thus:—"I have carried a bottle of your Worcestershire Sauce in a tour I have just completed through Spain and Portugal, and believe I owe my present state of health to its use; your Sauce is stomachic, and I think medicinal. I can with truth say there is nothing in a traveller's baggage so essential to his comfort, at least in these countries, as your Sauce."

In India, also, where it is found at the mess of every regiment, a medical gentleman writes from Madras to his brother in the same profession at Worcester, in the following terms:—"Tell Lea & Perrins that their sauce is highly approved in India, and that it is in my opinion the most palatable as well as the most wholesome sauce made."

This Sauce is suitable for every variety of dish, and the universal demand which its excellence has created, has led to many imitations being offered to the public, under a variety of names, but the genuine may be known by the names of "LEA & PERRINS" being impressed upon the patent metallic capsules, or patent glass stopper of the bottle, as well as the labels and wrapper.

POLICE COURT, MARCH 4.

BEFORE CLINTON WALWORTH, POLICE JUSTICE.

Joseph Wood, drunk. This man is an old offender, and was sentenced to 15 days imprisonment in the County Jail, in default of $5 fine.

Daniel Mahoney, drunk and disorderly, fined $3.

Matthias Liederbauer, convicted of assault and battery, was fined $5 and costs.

CIRCUIT COURT, MAR. 4.

HON. A. W. RANDALL PRESIDING.

In the forenoon, after the transaction of trifling business, adjourned to the afternoon, having no business awaiting the action of the Grand Jury.

At 2 P. M. the Court was again opened, and John Welch was placed on trial for burglary and larceny in a vessel. The Court assigned Mr. Prentiss and Mr. Cameron as Counsel.

John Fay and James O'Brien, indicted for larceny in the dwelling house of W. P. Flanders, were arraigned, and both defendants pleaded not guilty. The same two men were arraigned on another indictment for stealing two overcoats from Jones, Dinnin & Jones; to this Fay plead not guilty, and O'Brien pleaded guilty, and was sentenced to two years imprisonment in the State Prison.

These are the last parties indicted. Those who were indicted weeks ago have not yet been put upon trial. The last have been first, and the first will be last.

John Welch was found guilty, the jury not even leaving their seats. The Court sentenced him to 1 year and 6 months imprisonment in the State Prison.

The criminal trials will now proceed with regularity we suppose.

Important Meeting of the Board of Trade.

An adjourned meeting of the Board is to be held at their rooms *this* (Thursday) afternoon, at 2 o'clock, to dispose of some important business. A full and punctual attendance is particularly requested.

Milwaukee & Beloit R. R.—The annual election for Directors of the Milwaukee & Beloit R. R. Company was held in this city yesterday. There was a large attendance of Stockholders and much interest manifested in the proceedings. The following gentlemen received almost the entire vote cast and were duly chosen as Directors for the ensuing year: Wm. J. Whaling, Horatio Hill, M. B. Medberry, Lester Sexton, G. D. Dousman, Sewall Andrews, E. H. Ball, E. Elderkin, E. F. Mabie.

At a subsequent meeting of the Directors, the following officers were elected:

President—Horatio Hill.
Vice President—E. H. Ball.
Secretary—A. O. Babcock.
Ass't do.—R. H. Hewitt.
Treasurer—S. Andrews.
Chief Engineer—D. C. Shepard.
Executive Committee—H. Hill, E. H. Ball, M. B. Medberry, Lester Sexton, Wm. J. Whaling.
Finance Committee—H. Hill, M. B. Medberry, G. D. Dousman.

Meeting of the Board of Trade.

A special meeting of the Board of Trade was called at their new room, basement of the Newhall House, at 2 P. M. yesterday, to consider the subject of the proposed discrimination of tolls on the New York canals. The President, Mr. Kellogg, called the meeting to order and at his request, the Vice President, Mr Hooker, stated the object of the meeting. After a brief discussion, on motion of Mr. Chas. H. Wheeler, a Committee of three was appointed by the Chair to report resolutions for the consideration of the Board of Trade. The Chair named, as such committee, Messrs. C. H. Wheeler, Jas. Bonnell and Rufus King. Mr. Wheeler asked to be excused from serving, and Mr. W. B. Alvord was substituted. On motion of Mr. King, the committee were directed to report at an adjourned meeting of the Board of Trade, to be held at 2 o'clock *this* (Thursday) afternoon.

A Fair Claim for Relief.—At the last meeting of the Common Council, a petition was presented by Mr. George McWhorter, and referred to the City Attorney and the Aldermen of the Fifth Ward, asking for damages under these circumstances. Sometime in October last Mr. McWhorter, who was the Principal of the First Ward School in this city, was returning at night from a visit to a friend in the Fifth Ward, when he came to a spot where a heavy excavation for a street had been recently made, and there being no light, or signal to warn him of danger, he walked directly off the bank, falling a distance of twenty odd feet. Mr. McWhorter was most seriously injured by the fall, suffering a double fracture of the leg and other serious hurts; for the space of five months, or more, he has been utterly incapacitated for any business, and till within a few days past confined to his house and bed. For the injuries thus received, Mr. McWhorter no doubt has good cause of action against the city, and the result of a suit would probably give him heavy damages. But of his own preference, and by the advice of his counsel, he has submitted the matter to the Board not doubting that they would deal justly by him in the premises. It seems to us that his claim for relief is entirely reasonable, and we hope to see it allowed.

The Newhall House.—The cold weather has retarded work on the new hotel, but with the milder skies and more genial airs of the last day, or two, better progress will be made. A large share of the lathing and plastering is finished. All the furniture has been contracted for and will be ready at the time appointed. The painting is well advanced. Indeed the proprietor, Mr. Daniel Newhall, is entirely confident that the Hotel will be finished, furnished and ready for business, throughout, on the 1st day of June next. The public impatiently await the "good time coming." Such a Hotel has long been a prime necessity in our city, and all rejoice at the sure prospect of its speedy completion.

Moving an Old Church.—The old Universalist Church built some 14 years ago on the lots now occupied by the Newhall House, and moved from there about 7 years since to a lot between between Biddle and Martin streets, where it was owned and used for religious services by the Calvin Methodists, is again being moved to the corner of Van Buren and Michigan streets, where it will be used as as a Methodist Church by the Welsh, who have purchased the lot. It is a good building, and seems, from all appearances, as sound and as good as the day it was built.

Musical Society Concert.—The Concert of the Musical Society, at Young's Hall, last evening, attracted a large audience and gave, as usual, great satisfaction. A symphony of Beethoven's, in four parts, was admirably played by the Orchestra, and two fine choruses were sung with excellent effect. The gem of the Concert was a Violin Solo by Mr. Wenzenig, with Orchestral accompaniment. This was exquisitely performed and enthusiastically applauded. Mr. Wenzenig is a most important accession to our Musical Society.

Badger Iron Works.—Mr. Gregor Menzel has become associated with Cummings & Goodrich, as proprietors of the Badger Iron Works, corner Main & Chicago streets, Third Ward. Mr. Menzel is well and favorably known to our citizens and he will be a valuable accession to the substantial firm of Cummings & Goodrich. They are extensive manufacturers of Steam Engines, boilers, castings, sheet iron work &c., and whatever they undertake is promptly and faithfully done.

Bank Locks.—We invite attention to the card of Schumacher & Johnson in to-day's *Sentinel*. We had the pleasure, yesterday, of looking at some of their Bank Locks—the handiwork of Mr. Johnson—and can safely say that they are admirable samples of mechanism and proof against the most daring and skillful burglar. The curious in such matters would do well to call and inspect these superior Bank Locks.

Wholesale Commission House.—Messrs. Martin, Hartwell & Hewitt have rented the well known Red Warehouse, at the foot of East Water street, and intend to carry on there a General Wholesale Commission and Forwarding business. Their card will be found in our advertising columns. The firm is one of large means and will do a heavy business. Their references are of the the best.

Board of Trade Rooms.—The Board of Trade held their first meeting in their new rooms, basement of the Newhall House, yesterday afternoon. The room is of good size, well lighted, centrally located and supplied with newspapers &c. It promises to become a favorite rendezvous for our Merchants, Forwarders and business men between 12 and 2 o'clock, each day.

For the Sentinel.

The Grand Jury.

Messrs. Editors:—Your Reporter committed a great error in his revelations of the proceedings of the Grand Jury on Monday, and also in his statement of the proceedings in the case of John Welch, yesterday. No complaint for rape has been presented to the Jury, nor has that body refused to enquire into *any matter presented*, either by the County Attorney, or by individuals. The case of John Welch, charged with burglary and larceny in a vessel, which your reporter says the Grand Jury refused to entertain, was passed upon yesterday.

It seems very singular that such palpable misstatements should be made, and published to the world, in matters wherein the public have so deep an interest, unless the object of the author is to bring the Grand Inquest of the County into disrepute. If that is his design, he will fail, as the present members of that body are disposed to do their duty, without "fear, favor, or the hope of reward."

One who Knows.

Milwaukee, April 4th, 1857.

In relation to the above, we give our reasons for so writing. Previous to the Grand Jury being dismissed a few days since, the Police Justice, on the application of several parties for warrants in cases beyond his final jurisdiction, directed the applicants to the District Attorney, and the Grand Jury. In one or two cases, officers were sent with the parties, and the answers brought back to the Police Court were, that the Grand Jury would transact no further business; these statements were made *in open Court*. Since the resummoning of the Grand Jury, the case of Welch, for robbing the schooner *Norway*, was sent to the Grand Jury by the Police Justice, and the answer returned to the Court was as before, that no further complaints would be heard. In that state of things, Mr. Walworth held an examination in the case of Welch; the Grand Jury, it is true, indicted Welch, but not until *after* the article appeared in the *Sentinel*.

Reporter.

Arrested on a Charge of Obtaining Goods by False Pretenses—A man named James H. Woolsey was arrested in Madison Tuesday afternoon, on a charge of obtaining $900 worth of boots and shoes from Leland, Prentice & Co., of this city, in November last; he was brought here last night by Policeman Haack, of this city and taken to jail to be tried, probably, at this term of the Circuit Court.

Enlarging the Register of Deeds Office.—The Register of Deeds Office is about being enlarged 20 by 20 feet. An addition of brick will be built on to the West end of the present one, which, when finished, will make the office 40 feet long by 20 feet wide.

President Buchanan's Inaugural.

Washington, March 4.

Mr Buchanan's manner in delivering the inaugural address was remarkably impressive and determined. He began by appealing to the Almighty for strength and wisdom to enable him to carry out the Administration of affairs of the country to the advantage of the people. As he had determined not to try to be elected this Presidential term, his administration should be conducted purely and for the best interests of the whole country. He spoke of his election as having been accomplished by those anxiously desirous for the preservation of the Union; congratulated the country on the fact that the agitation on the subject of slavery had almost entirely ceased; and he declared, that for the first time in 20 years the country had arrived at peace on that subject. In reference to Kansas, he declared that it should be admitted with either freedom or slavery, according as the constitution, adopted by the people, directs. He went into a long argument to show that the Nebraska-Kansas Bill was right in principle. The equality of States, said he, must be preserved. He added, however, that slavery was less important, practically, than some other subjects before the American people. The geographical parties, to which the agitation of the slavery question has given birth, must die, for their existence endangers the lives of citizens of slave States. The spectacle which was now presented, of our whole people submitting quietly to the will of the majority, as expressed at the polls in the last election, was characteristic of this and of no other nation. So he thought that these geographical parties must die out.

He said that corruption in a republican government was fatal to its institutions, although in a corrupt country the forms of free institutions might remain until the life was gone. His administration should aim at purity in all its departments. In the disposal of the public lands there must be put a *stop*, so that our children may secure homes for themselves, and the brood of speculators and jobbers who live upon them may be crushed. The laws in regard to naturalization should remain as they are at present, putting the foreign and native-born citizens on a fair democratic level. In regard to the Pacific R. R. project, he said such a road may be made by Congress in the shape of a military road, to enable the government to extend protection to our possessions on the Pacific coast. Congress has full power to do this, and he agreed that it must and should be done, in order that we might be prepared on that coast for the emergencies of war.

Our Foreign policy must be to cultivate peace and good will with all nations, but at the same time all entangling alliances must be avoided.—This has been an axiom of our Government ever since the days of Washington, and none dare now dispute its propriety. It has been the boast of the United States that none of their territory has been acquired by war, as has been the case with most other nations, and this must continue to be our policy. We must refuse to take any territory whatever, unless it be acquired by honorable means, and diplomatic policy must be frank and honorable, and by pursuing such a policy we will continue to hold our position among the great leading powers of the world.

Mr. Buchanan read his address closely from the manuscript which he held in his hand. His voice was clear, but owing to the tremendous crowd, much of which could not see him, there was some interruption, and all of the address was not distinctly heard. There was much applause at those portions which referred to the equality of States, the evils of geographical parties, and the naturalization laws. Beyond the fainting of a few ladies in the crowd, no incidents of an unpleasant nature occurred. The procession was the finest ever seen in Washington, and the number of people present in the city exceeded anything ever known before. There were many banners bearing appropriate devices, also, several revolutionary flags from Virginia which excited much attention. Chief Justice Taney administered the oath of office at half past 1 o'clock and was the first to congratulate the President. Vice President Breckinridge, ex-President Pierce, Senator Bigler other prominent politicians were on the portico during the ceremony.

Bucyrus, Ohio, March 4th.

The spacious court house in this place was crowded almost to suffocation to-day, to hear the testimony before Justice Smith, on the examination of R. Jackson, Geo. W. Arnold, H. Raymond, W. Tate, T. Tate and J. Tate, charged with stealing from the cars of the Pittsburgh, Ft. Wayne & Chicago R. R. The evidence was conclusive. Five were held to bail in the sum of $1,000 each, and one, J. Tate, in $500. With one exception, all have been committed in default to the jail of Wyandott Co. The Grand Jury of Wayne and Stark Co's, have returned bills of indictment against twelve persons for stealing from the same Co.

Congress.

Washington, March 4.

Senate.—New York fire bill came up. Its opponents, among whom Clay, Iverson, and Slidell were most conspicuous, made endeavors to stave it off by renewed motions to amend, lay on the table or indefinitely postponed—calling for ayes and nays on each motion; also threatening discussion until the hour for closing the session. Its friends said little, being anxious to reach a vote; at length it was laid on the table, it being impossible to get it through. Several private bills passed, also bills providing for the construction of military roads in Washington and Nebraska Territories.

At half past 11 the galleries were densely crowded with ladies, waiting to see the preliminaries to the inauguration ceremonies.

Hale—Mr. President is there any question before the Senate—several Senators have suggested the propriety of a short executive session; (great laughter,) when Hale sat down without urging an answer to his inquiry.

Committee to wait on President of U. S., reported he had nothing further to communicate. President *pro tem* declared, after a brief valedictory the Senate adjourned.

Extra Session.—The oath was administered to Mason by Pearce, and the former was chosen President *pro tem*. Bayard, Bright, Broderick, Cameron, Chandler, Davis, Dixon, Doolittle, Hamlin, Kennedy, King, Mallory, Polk, Rusk, Sumner, Thompson and N. J. Wade were qualified. The Vice-President elect soon after and came in and the oath was administered to him, when he made a few appropriate remarks.

At 1 o'clock Ex-President Pierce, and the President elect, entered and proceeded with Senate, Supreme Court, foreign Ministers and others, to the east front of the Capitol, where the inauguration ceremonies were conducted; the Senate afterwards returned to their chamber and adjourned till 1 to-morrow.

24 military Companies, 7 clubs and associations, and several companies participated in the procession.

The oath was administered after reading the inaugural.

Dificiency bill failed to receive the signature of President Pierce, and is not a law.

THREE P. M. REPORT.

FROM WASHINGTON.

Congress in Session All Night!!

CEREMONIES OF THE INAUGURATION!

IMMENSE CONCOURSE OF PEOPLE!

Washington, March 4, 1857.

The House and Senate continued in session all night. At four o'clock this morning the House took a recess, and at 5 o'clock the Senate ditto, to meet again at 9 o'clock. On re assembling the business in both branches was mainly confined to reports from the several Committees of Conference.

President Buchanan's Inaugural Address was not wholly completed till this morning, and as there is but a single copy, there will necessarily be some delay in preparing it for transmission by telegraph.

The day opened by firing of cannon and ringing of bells. Weather beautiful. There is a great turn out of people, mostly wending their way to the Capitol. Sidewalks are completely blocked. The balconies are full of an immense mass of living freight. All available windows were occupied long before the procession started. The military are forming on New York avenue.

Evening Session—3d.—The Senate disposed of a number of private bills from the House, and concurred in numerous amendments and rejected others.

Mr. Seward, from the committee of conference on the deficiency bill, made a report recommending that the Senate recede from some of their amendments.

The appropriation of $183,000 for books for distribution among the new members of the House, was reduced to $137,000. Mr. Stuart hoped the report would be concurred in, believing it the best they could get. Messrs. Biggs, Toombs and Bayard opposed the report, preferring to lose the bill rather than to yield their hostility to the book amendment. Report was disagreed to, yeas 8, nays 38, and another committee of conference asked for.

The Ocean Mail Steamship Appropriation bill was passed. A third committee of conference on deficiency bill was appointed, the 2d not being able to agree.

House, 3d—Proceedings in the House as well as the Senate, were frequently interrupted by messages and reports from committees of conference.

The House passed the Senate bill, confirming to the several States the exempt and overflowed lands selected in the acts of 1849 and 1850.

The House refused to recede from the amendment to the amendment of the Senate, to the legislative and executive bill appropriating $20,000 to pay expenses of the next Kansas Legislature and insisted on its disagreement by 2 majority, subsequently receeded by 1 majority, thus ending the dispute on this bill.

The House passed the Senate bill more effectually to punish crimes on the high seas. Also the bill requiring disbursing officers of the Government to deposit their funds for the better protection with the Treasurer or some Ass't Treasurer of the United States.

Mr. Pringle made a report from the 2d committee of conference, on the deficiency bill, that they were unable to agree. The main cause of this being the appropriation of books for new members. Mr. Sage exhorted the gentlemen to stand firm, saying they had rights as well as Senators.

Mr. Houston justified the Senate's opposition to the books, and said that if Mr. Sage did not want to stir up ill blood, he would leave him alone in his laudable undertaking.

The House insisted on its disagreement. All the general appropriation bills have been considered. Several of them are hanging between the two Houses, the Committees of Conference not being able to agree.

The Senate returned the miscellaneous appropriation bill to the House with 103 amendments. The book feature of the Deficiency bill was so amended as to allow certain books to new members to be deposited in the public libraries in their districts.

The House passed the Senate's joint resolution, directing appropriate medals to be presented to Dr. Kane and his Arctic companions, in testimony of the high estimation in which Congress held their merits and services.

Aiken offered a resolution that the thanks of the House are due and are hereby tendered to Mr. Banks for the able, impartial and dignified manner in which he has discharged his duties during the present Congress. Craige, Wheeler and others objected to the reception of the resolution. The Speaker *pro tem.* Haven decided resolution was a question of privilege.

McMullen said he voted against Banks.—There was much in his conduct he could approve, and much he was called upon to condemn. As one of the Representatives of Virginia, he was not only opposed to the resolution, but entered his protest against it. It came from the last State in the Union he supposed it would come from.

He regretted that Aiken introduced it. If he could take back the vote he gave the latter for Speaker, he would do it. Mr. Seward, of Ga., regreted exceedingly that there had been any manifestation of ill-feeling on this subject. He came from Georgia, which occupies as proud a position as Va., or any other State. He came here with all the Southern prejudices against the occupant of the Chair. He watched his conduct closely and scrutinized it at every step, and he must say he had seen as much fairness in Banks as in the occupant of the chair of any Legislative body elsewhere.

He took pleasure in coming, as he did, from Georgia, and differing with the occupant of the chair, to vote for the resolution, and raise his voice in doing justice to a political adversary.—Great confusion! Harris of Illinois appealed from the decision, that the resolution was a privileged question. Cries—Too late. Harris loudly maintained he was not thus to be cut off from obtaining the floor.

Houston appealed to gentlemen to vote on the resolution and not to raise points of order.—Keitt asked Harris to withdraw his appeal. Harris did so on the condition that members could record their votes. Barclay ineffectually endeavored to table the resolutions during yea and nay call. Walker said, while he was willing to do an act of courtesy, he did not thereby endorse objectionable principles. Barksdale was willing to endorse the resolution except that part, saying Banks had acted impartially. Resolution adopted by 116 against 25.

House, amid deafening confusion, passed several compensative resolutions and bills, and other business attempted by fifty or more members. The Speaker, at near 12 o'clock, resumed the chair, and at that hour delivered a brief but eloquent address in acknowledgment of the honor bestowed upon him, wishing all the members a safe return to their homes. The address was applauded. Adjourned sine die.

The Senate was engaged principally with the appropriation bills. Adjourned sine die.

Washington, March 4.

The procession started for the Capitol about noon, being very long, it presented a beautiful appearance. The military of the District and community at large, were fully represented—Buck and Breck rode in open carriages, surrounded by the Key Stone Clubs—preceded by the military and a representation, by a lady, of the Goddess of Liberty, standing on a high platform drawn by six horses, followed by a miniature ship-of-war, made by the mechanics of the Washington Navy Yard. Then followed Clubs, Engine Companies and the balance of the procession according to the programme already published.

Mr. Buchanan reached the Capitol about 1 o'clock. A tremendous crowd was meeting there to hear the inaugural address, and received him with enthusiastic cheers. He proceeded immediately to the Senate Chamber where the oath was administered by Chief Justice Taney, and afterward emerged from the building to the eastern portico of the Capitol where a temporary stage was erected, and in the presence of assembled thousands commenced delivering the inaugural.

Notice Extraordinary!

WE WOULD NOTIFY the merchants and the public generally in the Western States that the Match Manufactory of R. W. PIERCE & CO., Milwaukee, Wis., is in full and successful operation, notwithstanding the declarations of a match concern in Detroit, Mich., that our establishment had burned down—that R. W. Pierce & Co. had failed—that no more R. W. Pierce's matches would be seen in market, &c. &c. We are well aware that all such assertions will in due time recoil with bad effect upon the party who originated them, and what we wish is, that the public should be set right in the matter. We now have facilities for manufacturing matches as cheap, or cheaper than any other establishment in the West, and as to the quality, we will leave those who have used them for the last thirteen years to be the judges, and will only remark that our business has increased from less than $1000, in 1844, to more than $60,000, in 1856.

All orders for matches promptly filled.

SALOM'S MERCANTILE COLLEGE!

A Perpetual Ticket for $25!

GENTLEMEN desirous of acquiring a thorough Mercantile Education, are assured that the advantages presented at this institution are unsurpassed.

The Principal takes this opportunity to acknowledge the courtesy of several of the most distinguished Shipping and Jobbing Houses in the East, who recently allowed him to examine their books, besides explaining many original plans for economizing labor, which, adopted as in some instances after the experience of half a century, may be justly designated the *ne plus ultra* of the art.

These advantages, grafted upon Mr. SALOM'S long practical experience in a variety of Counting Houses, have enabled him to elaborate a novel and valuable series of transactions, introducing all the great heads and ramifications of mercantile routine to be actually developed by the student. A perpetual ticket confers the privilege of instruction in Book-Keeping at all times, as well as tuition in Writing, Mercantile Calculations, Law, Correspondence Forms, &c.

The Surveying and Mathematical department is in progress during the day and evening.

LESSONS IN Foreign Languages.

MR. AND MRS. L. N. B. DE CRETY, from Paris, for four years past instructors in foreign languages in Milwaukee, have the honor to inform the public that they will form classes in the French, Italian and Spanish Languages on the 1st of September next. The course of instruction will be according to the age and intelligence of the pupils, and the classes kept entirely separate, their house being arranged with that view.

Gentlemen and ladies who begin to speak either of these languages, can receive lessons in Reading and Conversation, Mr. De Crety furnishing books of the best French authors. Those too wishing to learn music, will find in either of those languages, will find a competent music teacher in the establishment.

The hours of instruction will be from 8 to 11 o'clock A. M., and from 2 to 5 P. M. And in the evening from half past 6 to 8, for conversation.

Mr. DE CRETY will also give lessons in French, Spanish and Italian, at his office, to gentlemen only, from 7 to 10 o'clock in the evening, as also lessons in Fencing, the use of the Sword, and all military exercises. Persons of delicate constitution and feeble temperament, as also those confined to their offices and engaged in sedentary pursuits, will derive strength to their limbs and ment in their health, acquire strength in their limbs, and find an agreeable recreation.

Mr. De Crety will also form similar classes for children from 10 to 15 years old, at his house, or office, as parents may prefer. Fathers and mothers who desire to see their children strong, active and robust, can judge for themselves, after a few weeks trial, as to the effect of these different exercises upon their health.

The continued patronage of the public is respectfully solicited.

To MERCHANTS.—Mr. De Crety will take charge of French correspondence to all the principal cities of France and will procure all Price Currents that they may want.

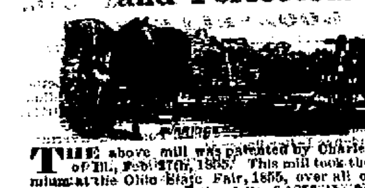
Every Man his own Miller.

PORTABLE CAST IRON GRAIN MILL.

Young America Improved and Perfected.



THE above mill was patented by Charles Leavett, of Ill., Feb. 27th, 1855. This mill took the first premium at the Ohio State Fair, 1855, over all other mills, and during the fairs of the fall of 1856, the first premiums over many others in the State Fairs of Ohio, New York, Tennessee, Michigan and Minnesota, and at the County Fairs of the following Counties of Ohio and Indiana, viz: Guernsey, Crawford, Logan, Medina, Ashland, Wayne, Knox, Montgomery, Clark, Erie, Lorain, Richland, Plymouth district, Chester, Frederick. In Indiana, Tippecanoe, Jefferson, Wayne, Fayette, Shelby, Jennings, Warren and Fountain.

Farmers, Saw Mill owners, Livery Stable men, and all others feeding stock of any kind are invited to examine the merits and superior advantages of the above mill.

The Young America will grind as much corn in the cob, shelled corn, oats, barley, and all other grains for stock as any mill of the same size, and with much less draft.

What we claim is great strength, durability and simplicity, being so simple that a child can learn to grind with safety.

In the next we claim the small expense to renew the grinding parts of the mill, and the ease with which the grinders are put on the mill, at a cost of not over three dollars, which makes it superior and more economical than any other mill. The grinding parts of the above mill are made of the hardest of cast iron, as hard in fact as cast steel can be tempered. Each set will grind from 5,000 to 10,000 bushels of grain, with proper usage. Besides the set of grinders on the mill, an extra set will be sent with each mill sold, making it equal to two common mills. When found necessary to change the grinders almost any one can do it in twenty minutes.

As a proof of the estimation in which the Young America is held in Ohio, we would state that, during the fall, winter and spring of 1855-56, 2500 were made and sold in Ohio, at Zanesville, by Douglas, Smith & Co., Hall & Allen of Mansfield, Eldridge & Fauncher of Cincinnati, and at New Philadelphia.

At this time there is not less than 200 being sold every week in Ohio, at retail, besides those sold in other states and the West.

The above mill is being manufactured and can be furnished at wholesale and retail, from the Wisconsin Iron Works of A. J. Langworthy, on the water power in the City of Milwaukee. The mill is warranted perfect in all respects.

Dealers in agricultural implements and machines of the State of Wisconsin, are requested to call and make arrangements for the sale of the above mills, to whom a liberal discount will be made on the retail price, also any others wishing to engage in a profitable business. Would call attention to good men who have teams, in any part of the State, who would peddle the mills through the country. Four can be taken on a wagon at a time—liberal arrangements would be made with them.

The above mill will grind from 8 to 20 bushels of grain per hour, in accordance with the kind and condition of the grain.

Price of the Young America $35—ready to hitch to and warranted to grind as fast as any mill of the same size when properly worked, and with less draft.

For further information address or see the undersigned, sole owner of the right to the State of Wisconsin.

For sale by W. HARROLD SMITH, Wisconsin Iron Works.

In reference to which they would suggest, that the facility with which their goods can be fitted, every garment being marked in lengths, and breadths, the same size breast being varied to suit different proportions of the same measure, should give them the preference over any clothing, the sizes of which are indefinitely marked. The difficulty of really suiting patrons from that fact, it is presumed, has been very generally realized. In a word, strict attention is directed in a determination to render our garments equal in every respect to the best custom work. feb6c3mVO&CO

E. & J. HOLMES' IMPROVED SEAMLESS WHALEBONE SKIRTS.

WE take pleasure in again introducing our Improved Seamless Skirt, as being the most acceptable article in market; we are aware that many new styles called Improvements are before the public, such as India Rubber, Gutta Percha, Rattan, &c., all of which we have if called for—but cannot recommend them, as we have experimented with, and tested them all—(most of them two years since) submitting them to the judgment of competent ladies to decide upon their merits, and have found them from actual use, to be in all important respects, inferior to our properly prepared Whalebone which has been in use the past years, and for which has been expressed from all parts of the country entire satisfaction; and we have the more positive evidence from our own large retail trade, amounting to many dozens per day. Therefore we confidently recommend our Skirts to be the least objectionable of anything in use; possessing many advantages *found in no other Skirt*, the most important of which is *our series of elastic cords* at the bottom, made from the only material that can be used, that will recover its place when pressed out of shape, will not roll nor curl, is not affected by heat or cold and can be washed without injury. These cords at the bottom, instead of bones, which are exceedingly awkward and inconvenient, with our own prepared bones above and a fabric manufactured by ourselves expressly for our goods, in our estimation, and the estimation of thousands who have used them, pronounce a Skirt, and the only skirt equally adapted to the parlor, the street, and the crowd, giving a proper, graceful and elegant form to a Ladies' dress, light, pliable, easily adjusted and in every respect a complete article. The public are cautioned against all imitations or other goods called Seamless Skirts. Every genuine article is stamped E. & J. Holmes' Improved Seamless Whalebone Skirt, and are for sale at 90 Market street, Philadelphia, and in the principal Jobbing Houses in New York and Boston. E. & J. HOLMES & CO.

HEALTHY BREAD!

MADE WITH

JAS. PYLE'S DIETETIC SALERATUS.

THIS article is deprived of the caustic impurities, so well known to exist in all common Saleratus, thereby dealing destruction to thousands no aware of its injurious qualities. So destructive is it to the constitution of children, that where they and their parents have been regular consumers of Saleratus Bread, there is but little chance for recovery from infantile or contagious diseases. In this way thousands meet with premature Death—the sad reality of which is forcibly demonstrated, in the mortality among children, in the New England and other States, where warm bread and cake is so generally consumed.

JAS. PYLE'S DIETETIC SALERATUS is of vast importance to the public, and is rapidly coming into use. Being deprived of all caustic impurities, it is quite as harmless as flour. In point of economy it excels, having powerful raising properties, and is altogether superior to Baking Soda. No intelligent lady will dispute this after trying it.

It is packed in pound packages, each bearing the name of James Pyle, without which it is not genuine. For sale by John Forlong & Co., O. A. Folsom, Chapin & Gregory, Milwaukee; Ethridge, Shoemaker & Co., Madison. E. H. Jones & Bro., Fond du Lac, Wis.; A. Gross & Cragg, Chicago. JAMES PYLE,

MEDICAL.

R. R. R.

THE MEDICAL TRINITY.

EACH of Radway's Three Remedies possess special curative powers over certain diseases; and when either the Ready Relief, Renovating Resolvent, or the Regulators, are used, for the certain class of diseases they are specially designed for, the system undergoes a rapid transformation from its diseased condition to a healthy and happy state of existence.

RADWAY'S READY RELIEF.

This remedy is to be used externally, or taken internally, for all pains, aches and infirmities. In a few minutes it stops the most torturing pains, subdues all inflammations and cures the worst cases of *Rheumatism, Lumbago, Gout, Paralysis, Neuralgia, Tooth-ache, Burns, Sprains, Strains, &c.* It restores the *lame, infirm and crippled* to soundness and vigor. It is likewise a certain cure and preventive for *Fever and Ague, Scarlet Fever, Smallpox, Croup, Hoarseness, Colds and Influenza.* Whenever you feel any unpleasant or painful symptoms, take a dose of Radway's Ready Relief, or apply it to the parts where the pain is located; in a short time you will enjoy ease and comfort.

Bear in mind, there is no pain so severe but that Radway's Ready Relief will stop, and no system so crippled with infirmities but that the R. R. R. Remedies will restore to sound and vigorous health.

RADWAY'S REGULATORS.

The discovery of these wonderful pills establishes a new era in purgatives, and a new principle in the science of medicine; in taking these pills no griping pains or sickness at stomach is experienced; they operate naturally, leaving the bowels, liver and other organs in a natural condition.

They insure those who take them a good appetite and a healthy digestion.

Each pill that is taken gives new life to the blood; they purify it, take from it all impure deposits and equalize its circulation.

One or two doses of Radway's Regulators will entirely remove all distressing symptoms of Dyspepsia, Jaundice, Nervousness, Indigestion, Costiveness, Liver Complaint, Biliousness, Melancholy, and will cure all organic diseases, either in man or woman. Ladies troubled with irregularities or weakening discharges, may rely upon a prompt cure and regular periods if Radway's Regulators are taken.

PICTURE OF HEALTH AND BEAUTY.

A few doses of Radway's Regulators will insure a clear, fair, pure and healthy skin and a rosy complexion. They give to those troubled with weak dull, yellow eyes, a clear and brilliant appearance. Radway's pills give a natural beauty to the face, eyes and head; and the use of the Ready Relief as a wash for the teeth and an aromatic for the breath, will change the most disgusting foul breath to sweetness, and the blackest teeth to Parian whiteness.

One to ten of Radway's Regulators is a dose; they never do injury, but always do good.

CONGESTIVE DISEASES, APOPLEXY, TERMINATION OF BLOOD TO THE HEAD.

Persons of full blooded plethoric habits are more subject to congestive diseases, headaches, rush of blood to the head, than those of a lean habit; bleeding in these cases is highly detrimental, nor does this practice lessen the danger; the difficulty is not caused by too much blood, but by its disturbed circulation, and the irregular action of the heart. Now a dose of Radway's Regulators will correct all these difficulties—they will correct the action of the heart, liver, and all other organs to a natural and regular action, and will immediately equalize the circulation of the blood. Mere purging in these cases will only aggravate the disease.

Radway's Regulators not only *regulate* the bowels, by which all diseased and injurious matter is purged from *the body*, but they control the whole system, and, *force*, each and every organ, the heart, brain, liver, nerves, bowels, skin, pancreas, bladder, kidneys, stomach, lungs, blood, and every tissue in the whole organization, to a healthy and regular action. They infuse new life throughout the whole system; their action is not confined to any local part of the stomach, like common pills, but they search out diseased action wherever it may be hidden, and expel all diseased humors and deposits from the body. In a few hours after taking a dose of these life restoring pills you feel refreshed and invigorated from head to foot. We have known the dispirited and melancholy take a dose of Radway's Regulators *just to feel good—they make one feel so happy.*

RADWAY'S RENOVATING RESOLVENT.

Cures Humors, Salt Rheum, Scrofula, Ulcers, Nodes, Tumors, Fever Sores, Skin Eruptions, Blotches, Bronchitis, Dyspepsia, Gout, Dropsy, Syphilis, Consumption, Apoplexy, &c., and all constitutional and chronic diseases, either inherited by hereditary transmission, or inoculated by exposure or otherwise.

There is no remedy in the world that will work such miraculous cures in old diseases as Radway's Resolvent. It changes the whole human body—reproduces new and healthy blood.

Bleeding from the lungs—Radway's Renovating Resolvent will, in a few minutes, check Hemorrhage from the lungs or throat. In cases where the patient coughs up clots of blood or pus streaked with blood, Radway's Resolvent will soon remove the difficulty.

Sarah Hammond, of 193 East Thirty-Second st., had a bad cough for two years, she coughed up somewhat half a pint of blood during the night. She was cured in seven days by the Relief and Resolvent.

A sore leg of 21 years cured in three weeks, by Radway's Relief. Mr. T. H. Kilgo, a merchant of high standing in Dahlonega, Ga., says:—"That a gentleman who, for 21 years, had been afflicted with a sore leg, and treated every kind of treatment, was effectually cured in three weeks by Radway's Ready Relief, Resolvent and Regulators."

GENERAL COMPLAINTS.

If you catch a sudden cold; get a sore throat, or become afflicted with influenza, a dose of Radway's Regulators, and an application of the Ready Relief, will free you from all pain and uneasiness. In a few minutes after the Relief is applied no soreness will trouble you. If afflicted with headache, either nervous or from foul stomach, Radway's Ready Relief, and a dose of Regulators, will remove all pain from the head, and restore health to the nervous and afflicted.

Radway's Ready Relief and Regulators always cures *Dyspepsia* in its most distressing forms, and nervousness with all its horrors.

WHOOPING COUGH.—Thousands of cases of Whooping Cough have been cured in a few days by the Resolvent and Relief, and if the Whooping Cough is prevalent in the neighborhood, those who take half a teaspoonful of Ready Relief in a little water, once or twice per day, will never catch it. Radway's Relief destroys the infection of the "Whooping Cough."

TOBACCO CHEWERS.—Those who have become reduced by the effect of tobacco, or the indulgence in spirituous liquors, who feel the horrors of incapacity, weakness, sterility, and the *infirmities* which a fast and intemperate, luxurious and hurtful course of life inflicts upon its victims, will find relief from these horrors, and sure restoration to health, strength and vigor, by the use of Radway's Relief, Regulators and Resolvent.

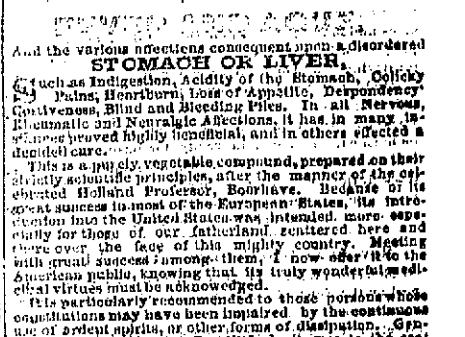
BOERHAVE'S HOLLAND BITTERS.



THE CELEBRATED HOLLAND REMEDY FOR

DYSPEPSIA,

DISEASE OF THE KIDNEYS,

LIVER COMPLAINT,

WEAKNESS, OF ANY KIND

FEVER AND AGUE,

And the various affections consequent upon a disordered

STOMACH OR LIVER,

Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic and Neuralgic Affections, it has in many instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE.—Whoever expects to find in this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a grateful aromatic cordial, possessed of singular remedial properties.

CAUTION!

The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given BOERHAVE'S HOLLAND BITTERS a fair trial. One bottle will convince you how infinitely superior it is to all these imitations.
